1. The following is an examiner's statement of reasons for allowance:

Claims 5 and 7 are allowable over the prior art of record, because the prior art of record does not disclose "a switching unit controller which permits the switching unit to provide: a normal supply of power to the transmitter unit and the receiving circuit in response to the ON operation of the switch when the user boards the vehicle, a normal supply of power to the transmitter unit and the receiving circuit for a specified period of time if the vehicle is turned off, and no power to the transmitter unit and the receiving circuit for an indefinite period of time after the specified period of time has elapsed".

Along wit the remaining features of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
